Benzodiazepines Prior Authorization Request Form (Page 2 of 2)

Concurrent use of Benzodiazepines plus Opioids
At the time of dispensing, your patient was identified as utilizing an opioid AND a benzodiazepine, prompting a safety review. This review is to ensure the opioid utilization is safe and appropriate for your patient. Your patient is taking both an opioid and a benzodiazepine.
Cancer Pain/End of life care (palliative care):
Is the requested medication being prescribed for pain associated with <u>active</u> cancer? □ Yes □ No
Is there confirmation the requested medication is being used for palliative care or end of life care? Yes No
Is the patient currently enrolled in hospice? Yes No
Does the provider confirm that the benzodiazepine is NOT used to manage symptoms associated with the patient's terminal condition or condition(s) related to the terminal illness? Yes No
Is the prescriber affiliated with the hospice provider? Yes No
If the prescriber is NOT affiliated with the hospice provider, does the prescriber attest coordination with the hospice provider confirming that the medication is unrelated to the terminal illness or related conditions? Yes No
Long Term Care facility:
Is the patient in a long-term care facility (e.g., hospital or skilled nursing facility where patient is receiving skilled nursing care)? Yes No
Provider attestation:
Does the provider attest that in his/her clinical judgment, the requested concurrent use of opioid plus benzodiazepine, is safe and medically necessary? Yes No
Does the provider attest that either the benzodiazepine or opioid drug interacting with each other will be discontinued? Yes No

<u>Please note</u>: This request may be denied unless all required information is received within established Medicare timelines.

If the patient is not able to meet the above standard prior authorization requirements, please call 1-800-711-4555.

For urgent or expedited requests please call 1-800-711-4555.

This form may be used for non-urgent requests and faxed to 1-844-403-1028.
