Turn tiny steps into giant leaps

Do you know you can choose to invest money in your health savings account (HSA)? With all the tax advantages, investing your HSA dollars is a nice option to save for long-term health care needs and financial goals. That’s because interest earnings and potential investment growth are income-tax free. And you never pay tax on HSA withdrawals for eligible items.

Grow your HSA balance

Let’s say you contribute $5,000 every year to your HSA. If you save it and don’t touch it, in 20 years it’ll grow to $100,000. But if you invest that $5,000, and it gives you an extra 6% in earnings, it could grow to $194,964 in 20 years. That’s the potential for nearly twice as much as if you didn’t invest.

See the trends

Do you know over 2.5 million American are investing their HSA funds? And the average HSA balance for these Americans is $16,397 – 6.7 times larger than account holders who do not invest their HSAs.
To get started with self-directed mutual funds:

1. Sign in to your HSA and set up your investment account by choosing the self-directed mutual funds option from the investment options page.

2. Choose the funds you want to invest in. **Tip:** You can use the Asset Allocation Calculator in your online account to help you decide which funds are right for you.

3. Indicate the amount you want to transfer into your investment account.

4. Want to make future investing easier? You can choose to set up recurring transfers. You choose a certain threshold amount, and any funds over your threshold will automatically be transferred to your investment account. Manage your investments easily in your online account by viewing market trends, tracking portfolio performance, and manually or automatically rebalancing your portfolio.
To get started with personalized, online advice through Betterment:

1. Sign in to your HSA and select Betterment from the investment options page.

2. Choose the initial amount you want to transfer to your Betterment account.

3. You’ll be securely taken to Betterment to answer a few questions. Betterment will learn more about your goals and risk level to create a recommended portfolio that’s customized for you.

   **Tip:** Betterment customizes your HSA investments to suit your needs: whether you have long-term savings and retirement in mind, or prefer a portfolio that can be easily accessed for current qualified medical expenses.

4. Take full advantage of Betterment’s technology by returning to your HSA and setting up auto-transfers. You choose a certain threshold amount, and any funds over your threshold will be automatically invested and managed by Betterment.

Investing may help you maximize your long-term savings

Let’s say you contribute $3,000 a year to your HSA until retirement. Assuming you use $1,500 a year for medical expenses, earn 6% a year in interest and investments, and reinvest all earnings, your savings can really add up. But, the earlier you start, the more potential you have. See how starting in your early years can really pay off.
